

Updated the Input Schema for the UserStory Reviewer:

 **Input Schema**

Endpoint Name

Expose API
Select which component fields to expose as inputs in this flow's API schema.

	Mode	Enable cURL mode to populate fields from a cURL command.	<input type="radio" value="URL"/> URL <input checked="" type="radio" value="cURL"/> cURL
	URL	Enter the URL for the request.	https://nandhini2702.atlassian.net/rest. 
	Method	The HTTP method to use.	POST 
	Body	The body to send with the request as a dictionary (for POST, PATCH, PUT).	 Open table

 **Input Schema**

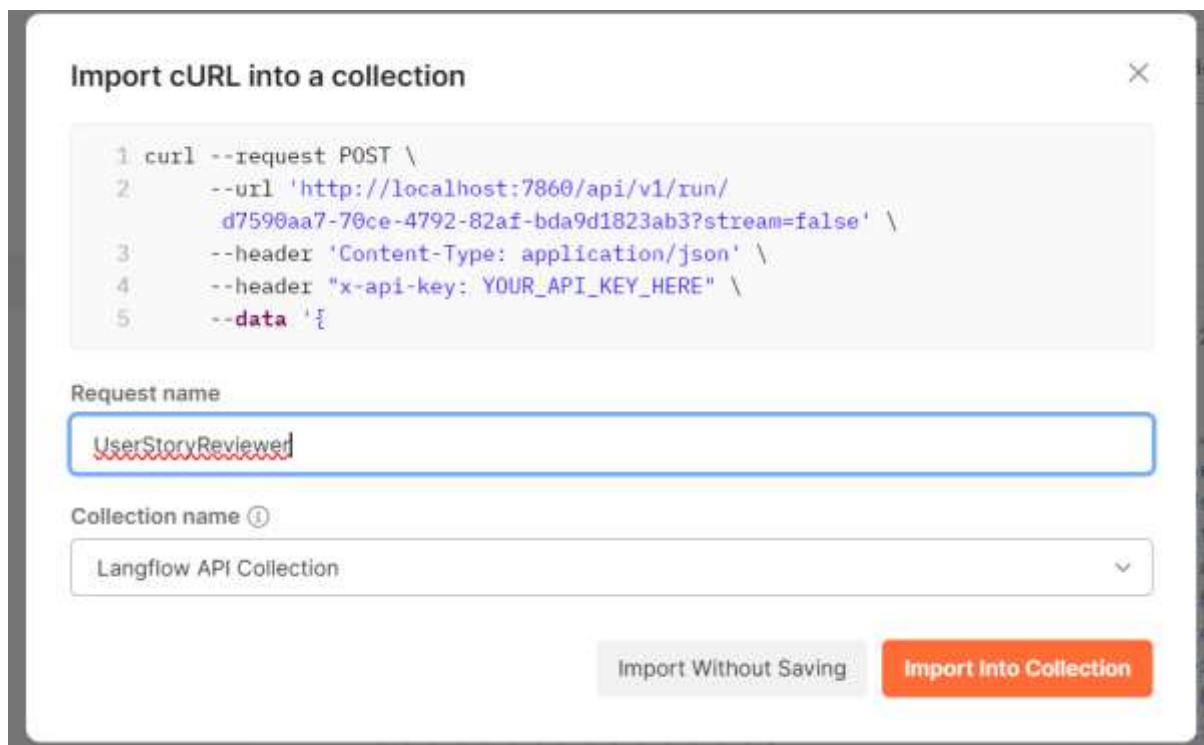

Endpoint Name

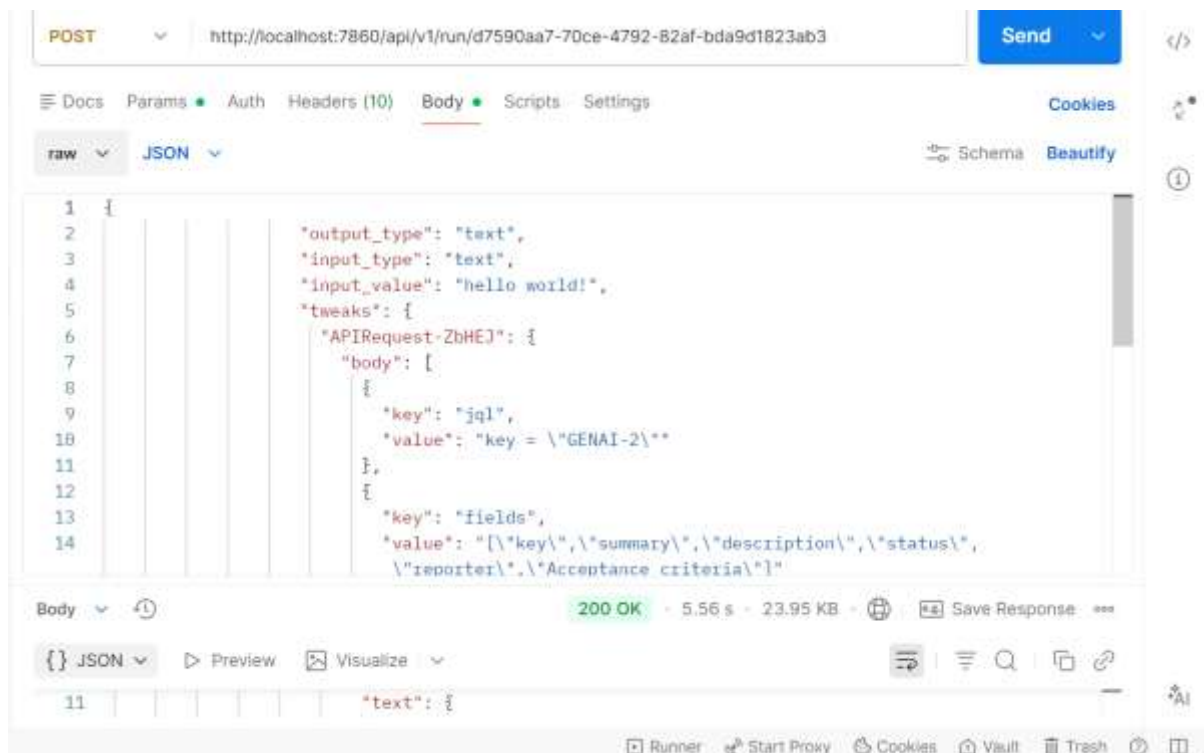

Expose API
Select which component fields to expose as inputs in this flow's API schema.

	Body	The body to send with the request as a dictionary (for POST, PATCH, PUT).	 Open table
	Headers	The headers to send with the request	 Open table
	Timeout	The timeout to use for the request.	30 
		Whether to follow HTTP redirects. WARNING: Enabling redirects	☒

Imported the cURL with input params included to pass Jira details:

After importing the api, we can see the body has the params to pass the Jira url, jql and fields

Beautified the outcome from the API response using ChatGPT and got the html generated by the AI itself:

User Story Evaluation Report

Parameter	Assessment	Score
Clarity	Story is understandable but lacks detailed JSON structure and parsing requirements.	18/20
Completeness	Missing preconditions, acceptance criteria, expected outputs, and validation rules.	12/20
Business Value Alignment	Business benefits are implied but not explicitly defined.	10/20
Testability	Lacks sufficient information to derive comprehensive test cases.	15/20
Technical Feasibility	Implementation appears technically feasible with minimal complexity.	18/20

Overall Score: 73 / 100

Improvement Recommendations

- **Clarity:** Define the JSON schema and processing requirements in detail.
 - **Completeness:** Include acceptance criteria, preconditions, dependencies, and expected outcomes.
 - **Business Value Alignment:** Clearly state the business objective and expected benefits.
 - **Testability:** Provide detailed validation rules, expected results, and test scenarios.
-
